

Deepika Raja

A Fine line of
Elegance lies in
balancing Modesty &
Modernity

DEEPIKA RAJA

A Fashion Technologist turned actress with immense passion for acting which drove her to explore further.

As a start to her career, Deepika initially got introduced into the Film industry as an Assistant Costume Designer. She had assisted designers like Dorothy Jai ,Kavitha and Ashok Kumar.

While she enjoyed being a Designer, she was also seeking opportunities to act and got few opportunities in various short films beginning with "Nalaiya Iyakunar "Season 6. Alongside designing she also happened to explore another Art form i.e acting and found deep passion towards. She continued focusing more on acting over costume designing and started enhancing her skills.

At present, she is training herself vibrantly and is looking to grab on challenging, artistic roles that could both build her and extract maximum possible justification from her towards fulfilling the needs of the role.

ABOUT

PERSONAL INFO
